

ISO 16949:2002
Comprehensive Review of the Technical Specification
– a 1-day Workshop

Course ID: P1014

GENERAL DESCRIPTION:

In this one-day course, participants will learn how to provide detailed interpretation of the new technical specification ISO/TS 16949:2002 for automotive specific requirements.

- Learn what's new - The Process Approach
- Explore the challenges for transition to the new technical specification.
- Are there opportunities for integrating your current quality management system (QMS) with the new ISO/TS 16949:2002 technical specification? Find out how the new technical specification makes this easier.

CONTENT OVERVIEW:

- An Interpretation Workshop explores the technical specification in detail
- Presentation of the history and background of the International Organization for Standardization as it relates to ISO 9001 and the related family of standards
- Focus is placed on understanding the intent of the standard with the objective of implementation of non-bureaucratic systems.

DURATION/SCHEDULE:

- 1 day of instruction, discussion, and assignments/workshops
- Classroom hours are typically 8:00 a.m. - 12:00 p.m. and 1:00 p.m. - 5:00 p.m.

STUDENT MATERIALS:

- ISO/TS 16949:2002 Technical Specification
- Student workbook
- Additional handouts as appropriate
