

PPAP (AIAG)
Introduction to the Production Part Approval Process
– a 1-day Workshop

Course ID: P2190

GENERAL DESCRIPTION:

This one-day intensive course provides an in-depth understanding of the requirements of the Production Part Approval Process (PPAP) as defined in the AIAG PPAP Requirements Manual. In presenting the requirements of PPAP, the student is exposed to a solid background in Advanced Product Quality Planning (APQP) as described in the AIAG Reference Manual.

This course is balanced with lecture/theory, which is presented in the morning and workshops which are presented in the afternoon. The workshops involve team activities.

This approach to training presents an excellent learning opportunity, solidifies the requirements of PPAP and develops "auditor-like" skills among the students relative to the compliance of PPAP records.

DURATION/SCHEDULE:

- 1 day of instruction, discussion, and assignments/workshops
- Classroom hours are typically 8:00 a.m. - 12:00 p.m. and 1:00 p.m. - 5:00 p.m.

STUDENT MATERIALS:

- AIAG Reference Manual: Production Part Approval Process
- Student workbook
- Additional handouts as appropriate
